Rights Bill Sent To Ike

Three-Week Boston News Strike Ended

BOSTON, Aug. 29 (P)—An agreement to arbitrate a demand for an additional \$2.12 weekly wage increase tonight brought an end to a strike which has paralyzed six of Boston's seven daily newspapers since Aug. 9.

The agreement came at the end of a long day of negotiations between representatives of the publishers and the Mailers Union, an affiliate of the International Typographical Union.

Although precise terms of the arbitration agreement were not immediately made public, it was learned that during the day the mailers accepted a \$10.50 weekly raise which they had rejected on Aug. 17. However, they held firm in their demand for \$12.62 but agreed to let the matter of the \$2.12 difference be arbitrated.

The publishers had said that the \$10.50 package raise, spread over two years, was their final offer.

The three publishers of the affected newspapers immediately announced plans to resume publication with afternoon editions tomorrow.

"The parties of both sides have completed their talks and agreed that this matter shall be submitted to the members of the Mailers Union tonight," Gov. Foster Furcolo said in announcing the agreement to arbitrate.

He said the exact terms of the arbitration agreement could not be revealed until they were submitted to the mailers' membership at a meeting scheduled later.

Stephen D'Arcy, counsel for the mailers said the local and international officers of the union would recommend favorable action by the rank and file.

Quartet Plans Cross-Country Balloon Flight

MINNEAPOLIS, Aug. 29 (P)—The president of a Minneapolis corporation, his wife and two associates are planning to make a transcontinental balloon flight at 39,000 feet in an open gondola.

Otto Winzen, head of Winzen Research, Inc., said today the flight will be launched at San Diego, Calif., sometime in October, when the prevailing westerly winds are strongest.

Winzen's firm manufactures plastic balloons and one of the bags was used in the Aug. 20 "Man-High" flight which carried Air Force Maj. David G. Simons to a record 100,000 feet.

Joe Grotsh, an official of the Winzen firm, said the October flight will be made at about 39,000 feet. The four gondola occupants will keep comfortable in cold weather gear and will breathe through oxygen masks.

Grotsh said the balloon could land "anywhere on the east coast from New York to Florida." However, if winds hold to their general pattern the balloon would be over North Carolina when helium is released and the balloon descends.

Independence Near

KUALA LUMPUR, Friday, Aug. 30—The Federation of Malaya becomes an independent state in the British Commonwealth at midnight tonight. Diplomats from all over the world were gathering for official ceremonies tomorrow.

Senate OKs Legislation

WASHINGTON, Aug. 19 (P)—The Senate tonight passed the compromise civil rights bill and sent it to the White House after Sen. Strom Thurmond (D-SC) ended a record-smashing, one-man filibuster against it.

The vote was 60-15.

First civil rights measure to clear the Senate in 82 years, the bill is considered certain to be signed by President Eisenhower, though it is far from all he asked.

It would empower the attorney general to apply for federal court injunctions against violations or threatened violations of voting rights; give federal judges somewhat limited powers to jail and fine persons contemptuously disregarding the injunctions; create a bipartisan commission with subpoena powers to investigate civil rights problems, and set up a new civil rights division in the Justice Department.

The bill passed less than two hours after Thurmond ended his marathon talkfest at 9:15 p.m. He had lasted for 24 hours and 19 minutes.

As the night wore on, other senators from the Deep South arose to register their objections to the bill as an invasion of state's rights and a blow to what they termed the immemorial right of trial by jury.

But they shunned the filibuster tactic. Some of them were critical—privately or openly—of Thurmond. They grumbled that he had made a grandstand play to the folks at home and had "defected" from an agreement not to filibuster.

Nub of the long dispute that ended in the compromise measure was the jury trial question.

As passed, the bill permits federal judges to punish without jury trial cases of civil contempt, which are designed to secure compliance with a court order rather than to punish.

In cases of criminal contempt aimed at punishment—a federal judge can decide whether to try the defendant himself, or with a jury. But if he dispenses with a jury and decrees a punishment of more than 45 days in jail or more than \$300 fine, the defendant can demand and get a completely new trial before a jury.

The Senate agreed to allow Thurmond to resume where he left off after the interruption.

Also waived was the customary wait for an official count of the ballots in Tuesday's election. The Wisconsin Board of Canvassers certified Proxmire's election on the basis of unofficial returns which showed he defeated Republican former Gov. Walter J. Kohler by about 435,000 for Proxmire to 313,000 for Kohler.

Telegrams from the Board of Canvassers and Republican Gov. Vernon Thomson certifying that Proxmire was the winner were read to the Senate before Nixon administered the oath.

Seating of the 41-year-old newcomer gives the Democrats a 50-46 edge over the Republicans in the Senate. Proxmire, elected to serve out the remaining 16 months of McCarthy's term, already has announced he will seek a full six-year term in November 1958.

The House is awaiting final Senate action on a compromise foreign aid bill and some less controversial measures. These are being held up by the Senate's civil rights debate.

Rep. Gross (R-Iowa) voiced the impatience of many House members by asking Democratic Leader McCormack (Mass.) how long the House was "going to sit at the throne of the other body and wait."

McCormack said he was unable to answer that question, nor could anyone else. He said he hoped the House could finish all business tomorrow.

"What will happen, I don't know. I hope for the best."

House Orders Session Today

WASHINGTON, Aug. 29 (P)—Final adjournment of Congress late tonight, hoped for by many members, was officially ruled out today when the House ordered a session starting at 10 a.m. Friday.

The House is awaiting final Senate action on a compromise foreign aid bill and some less controversial measures. These are being held up by the Senate's civil rights debate.

Rep. Gross (R-Iowa) voiced the impatience of many House members by asking Democratic Leader McCormack (Mass.) how long the House was "going to sit at the throne of the other body and wait."

McCormack said he was unable to answer that question, nor could anyone else. He said he hoped the House could finish all business tomorrow.

"What will happen, I don't know. I hope for the best."

New Mile-High Mountains Found In Arctic Ocean

NEW YORK, Aug. 29 (P)—Discovery of new mile-high mountains in the Arctic Ocean fairly near the North Pole was announced today.

The mountain range, buried under deep cold waters, was found by American scientists daringly floating on ice floes to do research during the International Geophysical Year.

The news was radioed here by Maurice J. Davidson, 26, Columbia University geophysicist in charge of the meandering, frozen scientific outpost. It was made public by the university's Lamont Geological Observatory.

Using echo-sounders measuring water depth, Davidson's group found the 5,000-foot high range 400 miles from the Pole, in the area studied by 64 nations of the earth

Migrant Labor "Slave" Charge Inquiry Begins

ALBANY, N.Y., Aug. 29 (AP)—The State Labor Department today launched an inquiry into a Georgia man's charge that he and 22 other Negroes had been held in virtual peonage at a migrant labor camp in upstate New York.

But the department ran into early trouble trying to pinpoint the target.

James H. Brunson, 39, said in Augusta, Ga., yesterday that white farm bosses beat and cheated field hands at a camp near Hannibal, in Oswego County.

He gave the name of the camp but the department could not positively identify it.

Gov. Averell Harriman yesterday ordered two state agencies to conduct a full-scale probe into what he termed "abuses" at migrant labor camps.

But he had told a news conference Tuesday that there was no slavery or peonage — a charge raised by the National Assn for the Advancement of Colored People.

Brunson told the Augusta Chronicle that some Negroes were paid as little as \$5.49 for a 72-hour week, that unmarried Negro women were forced to submit sexually to other Negro workers, and that living quarters were 8 by 10-foot rooms shared by four persons regardless of sex.

Brunson said he was lured North by "pie-in-the-sky promises" of a Negro work contractor. Brunson, who identified himself as a writer and college graduate, said he was trying to steer other members of his race away from what he called the same trap.

Georgia Gov. Marvin Griffin declared at Atlanta: "If the report is true, it should be completely investigated and steps taken to see that even though such activities occurred in New York State, all persons are given their civil rights."

Harriman's office said the State Labor Department would "make every effort to determine" the validity of Brunson's complaints.

Jupiter Missile Test Successful

WASHINGTON, Aug. 29 (AP)—Only the official silence imposed by the Defense Department prevented the Army today from saying flatly that its 1,500-mile Jupiter missile is a success and could be in production within 30 days.

This positive Army assurance about its entry in the longer-range ballistic missile race developed after a Jupiter was launched from Patrick Air Force Base, Fla., yesterday and traveled the planned 1,500-mile distance over the Atlantic without a single hitch.

It came as Sen. Jackson (D-Wash.) renewed his contention that U.S. production of medium- and long-range missiles has been delayed in time and cut back in numbers below previously planned schedules.

Jackson spoke out after a four-hour closed meeting of his Senate House Atomic Energy Weapons subcommittee with Acting Secretary of Defense Quarles, Intelligence officials, and missile experts from the Army, Navy and Air Force.

Integration Hits Snag

LITTLE ROCK, Ark., Aug. 29 (AP)—Plans to integrate Little Rock's 2,000-pupil Central High School next week hit a legal snag today when a state judge granted a temporary injunction against the projected race mixing.

Confidential Trial Jurors Have Yet To See Film Star

LOS ANGELES, Aug. 29 (AP)—A flood of second-hand scandal about stars of the entertainment world is boiling out of the criminal libel trial of Confidential magazine.

But if you were one of the six men and six women sitting in the jury box, you would find these famed personalities only shadowy figures from the pages of magazines.

As the sensational case moves toward its climactic scene, the jurors have yet to see or hear a movie star.

"Is it true that you—?" the stars were to be asked about a variety of alleged incidents.

By this method, the defense hoped to establish that the stories were true.

But a court ruling blocked the projected wholesale call of stars

Senate Tied Up, Ike Gocs Golfing

WASHINGTON, Aug. 29 (AP)—The White House appeared to take a dig at Sen. Thurmond (D-SC) and his one-man filibuster today in announcing that President Eisenhower had decided to get in a round of golf.

Press secretary James C. Hagerty called in the reporters and said he had an announcement to make. It was this:

"The President had expected a busy legislative day today. Because the business of the Senate is temporarily tied up, the President has decided to go play golf."

Solons Go Easy On Thurmond

WASHINGTON, Aug. 29 (AP)—The long filibuster by Sen. Thurmond (D-SC) could have been stopped early in the game if fellow senators had wanted to pull the boot on him.

Apparently, they went easy on him for fear of setting off a full-fledged filibuster by fellow Southerners who might resent any gag on Thurmond.

Senate rules, if enforced, limit each senator to only two speeches on a single question. Thurmond actually was making his second major speech when he began last night.

Since then the slow-speaking Carolinian actually has made half a dozen or more speeches.

That was because other senators or Senate business gave him numerous breaks and rests with permission to continue when they were over.

When a senator is speaking or "holding the floor" rules permit him to yield only for a question.

But this is ignored by the simple request for unanimous consent to get around the rule.

Four Persons Die In Alpine Storm

SALZBURG, Austria, Aug. 29 (AP)—Two teen-age boys and two of their teachers perished today in a snow storm in the Alps. Another boy in their party of 11 from Vienna was missing and feared dead.

The victims were trapped last night on the slopes of the 10,700-foot Wiesbachhorn peak south of Salzburg.

Four youths managed to reach the safety of a mountain hut, where all had started out two days ago. The other seven camped in the open in the raging snowstorm during the night.

Alpine police and mountain guides rescued two boys at one camping site. At another site, where five persons had been spotted from the air, they found only two boys alive. Two others and a teacher had frozen to death. A second teacher was found alive on the slopes, but died en route to a hospital.

Boy Killed, 7 Hurt In Car-Truck Crash

SIKESTON, Mo., Aug. 29 (AP)—A car carrying eight members of a North Beach, Md., family on a surprise visit to relatives in southeast Missouri collided with the rear of a gravel truck today. One was killed and the others injured. Jerry Vires, 13, was killed instantly.

Reported in critical condition at the Delta Community Hospital here were Ann Vires, 11, and Jimmy Vires, 10.

Less seriously hurt were Mrs. Zettie Florence Vires, 41, mother of the children, Alvis Vires, 20, the driver, Dorothy, 9, Tommy, 4, and Joe, 3. They also were brought to the hospital.

CONFIDENTIAL TRIAL JURORS HAVE YET TO SEE FILM STAR

LOS ANGELES, Aug. 29 (AP)—The prospects that there will be any personal appearances are getting slimmer.

The jurors have had their ears filled day after day with the supposed amorous goings on of Hollywood's actors and actresses, young and old.

But these 12 people sit expressionless as one lurid tale after another drips from the witness stand. Supposedly these stories, some published as long as two years ago, are entirely new to the jurors. They said before being chosen that they were not readers of Confidential and Whizzer magazines.

These magazines and their Hollywood agents, Fred and Marjorie Meade, are being tried on charges of conspiracy to commit criminal libel and to print lewd and obscene matter.

By this method, the defense hoped to establish that the stories were true.

But a court ruling blocked the projected wholesale call of stars

Alleged Pseudo-Physician Arrested At Towson By FBI

BALTIMORE, Aug. 29 (AP)—The FBI today arrested Borge Emil Stendorf, who they said had posed as a doctor in a variety of jobs in New York and Maryland since 1940. They charged him with furnishing false information concerning his medical qualifications. The 42-year-old alleged pseudo-physician was arrested at his home in suburban Towson on warrants charging two counts of falsifying applications for federal employment as a medical doctor.

The FBI said Stendorf most recently served as a physician from Feb. 18 to May 24 at the Aberdeen Army Proving Ground. He resigned that job May 24 after

inconsistencies in his record and dran's Center, Laurel, Md., for medical officer in th Army, per-ical School of the University of merly the District of Columbia forming orthopedic work and as Copenhagen, Denmark. authorities, the FBI said.

Stendorf was arraigned before U. S. Commissioner Ernest C. Volkart and held in \$15,000 bail. The charges of falsifying his qualifications on applications for

employment as a physician in the Aberdeen job, the federal jobs were based on the and surgery in Maine, New York employed as a plant physician at Laurel and Aberdeen employment, and Maryland, that he was at the Glenn L. Martin Co. in Baltimore from Sept. 16, 1955 until

W.Va. Park Program Runs Into Financial Trouble

CHARLESTON, W. Va., Aug. 29 (UPI)—West Virginia's multi-million-dollar state park improvement program, supposedly self-supporting, is in financial trouble and needs money from the Legislature to avoid default on revenue bonds. Two revenue bond issues totaling \$4,400,000 were floated to finance the improvements. One for the Republican administration's \$3,100,000 was sold in 1955. The

other, for \$1,300,000, was sold last year. Payments on the debt are due each November and May. Lane said the Conservation Department needs about \$30,000 a month in park revenues to pay off the bonds. The parks are yielding that much now, during the busy summer season, but income will nose dive when fall and winter come.

Horses abandoned by Ferdinand and de Soto near the Texas border became the forerunners of all the wild horses in North America. The Eskimo kayak, or one-man canoe, is made of walrus skins stretched over a framework of whale bone or driftwood.

Makes Quick Decision To Lead Expedition

MONTREAL, Aug. 29 (UPI)—Judge Emmett McManamy gave Alexander Lotofsky, 25, a month to decide whether to scrap his car or pay \$100 fine and buy license plates to replace those he had borrowed from a friend. Alex made a quick calculation and decided immediately to junk the heap, a 1941 number valued at \$60.

KATMANDU, Aug. 29 (UPI)—Nepal reports Texas oilman Tom Slick has been given permission to lead a Himalayan expedition again this fall in quest of the legendary Abominable Snowman. Slick is among those who profess a belief the yeti (the Nepali name for the A.S.) is more than a myth that leaves mystifying footprints in the high snows of Nepal.

17-Year-Old Girl Shows Two Reserve Champion Steers At Maryland Fair

TIMONIUM, Md., Aug. 29 (P)—There was a slight reversal of the sexes today at the Maryland State Fair.

A 17-year-old girl excelled in what is, generally speaking, a man's world—the tanbark covered show ring.

And a retired policeman won a blue ribbon where menfolk, generally speaking, fear to tread—the home arts department.

Joan Bozzell of Ellicott City, a skilled competitor in the art of

fitting and showing beef cattle, led a Black Angus steer into the show ring and came away with the 4-H Club reserve champion award.

Then she brought a Hereford steer into the ring and again won the reserve champion award.

Both animals easily outweighed the small blonde girl by 900 pounds but she had a sentimental attachment for them. "I like the Angus," she said. "He's nice."

Joan is the daughter of John Bozzell, a

smaller competitor in the art of

bed-spread-making, a one-time Baltimore City policeman won the blue ribbon for his knitted white cotton spread.

The winner, Joseph L. Crovo of

Finksburg works as a guard at

the fairgrounds. He said he collaborates with his wife, a retired

nurse, in knitting spreads during the winter.

Today was Matt L. Daiger Day

and fair officials paid tribute to the President - emeritus of the Maryland State Fair and Agricultural Society.

Daiger, the first Baltimorean ever named president of the organization, served from 1943 to 1950. He puts in a yearly appearance at the fair wearing one of the checked suits for which he is so well known.

Lampasas, Tex., Almost Swept Away By Flood, Stages "Comeback Party"

LAMPASAS, Tex., Aug. 29 (AP)—Lampasas aims to prove this weekend that flood-ruined towns do come back. Residents gave it a name, "Comeback Celebration," invited the governor to speak and ask citizens of surrounding towns to come see how the town of 5,000 has been restored.

Less than four months ago — May 12 — a levee broke, sending a wall of water through the business district. It wiped out or damaged 86 stores and 310 homes. Six persons drowned.

Friday and Saturday, the citizens will point to restoration of almost all the former businesses and

to homes cleaned and repaired or rebuilt. Merchants have a wry business slogan: "If you buy it in Lampasas, it's bound to be brand new."

The Corps of Engineers estimated flood damage totaled \$5,485,210. The restoration was done largely

with loans and some outright help. And back-breaking work. Flood insurance was not generally available.

Gov. Price Daniel's speech will be Friday morning. The two-day celebration will include band concerts, distribution of free merchandise, and thanksgiving services.

The levee on Sulphur Creek

broke after nightfall May 12, a clean of all merchandise and fixtures. Automobiles were rolled along like pebbles.

It sent a wall of water through the business district and into some residential areas. At some places, the water was 10 feet high. It came so unexpectedly that nothing could be taken to higher ground.

The flood washed away some business buildings. Others it swept

away. Automobiles were rolled along like pebbles.

By the next morning, the water had subsided. The flood was caused by an average of six inches of rain dumped on the creek's watershed within minutes. Lampasas had two previous ma-

ludes, in 1873 and 1926 — She has been runner-up in the best actress competition at the Cannes Film Festival and plays a leading role in the Japanese film "People of the Rice Fields."

Starlet Visiting China

HONG KONG, Aug. 29 (AP)—Red China radio reports Japanese actress Yuko Mochizuki has arrived for Peiping's Asian Film Week.

Cresap Homemakers Club Plans Fall Activities

The Cresap Homemakers Club met at the home of Mrs. Arthur Cresaptown Community Council Ferguson. Cresaptown, yesterday, expressing its thanks for the cooperation and support the club had given it during the outdoor presided and led the flag salute.

Mrs. Harold Lewis read the thought for the day and Mrs. Herbert Heineman gave the history of the hymn of the month, "For the Beauty of the Earth," and led group singing of the hymn.

Roll call was answered with members telling what they exhibited at Cumberland Fair. It was announced that \$15 was realized from the club demonstration of the repair of spring cushions given at the Fair. Mrs. Edith Cunnihan, Mrs. Edgar Houshaw and Mrs. Annie Shanks were in charge of the demonstration.

Lisa Sheally Celebrates Third Birthday

Mr. and Mrs. Ronald Sheally entertained with a lawn party honoring their daughter, Lisa Sheally, on her third birthday at their home, 810 Frederick Street.

Guests were Debra and Steve Shroud, Jan and Dawn Steinmann, Vickie and Susan Dennis, Beth Pelicerzi, Jack and David Triebel, Alan and Nancy Shaffer, Linda Spence, Steve and Lou Ann Van Pelt.

If you'd like to be a different person, a different school or job this fall will help.

Secrets Of Charm

by John Robert Powers

Make A Change

Going to a new school this fall? Starting a new job? Moving to a new neighborhood or a new town?

Well then, you'll be with new people and you'll have a chance to make changes in yourself.

If your life centers in one place for too long a time, people take you for granted. This is a comfortable state of affairs, but not always the best one. If you're young, you may have established an idea of what you are like that's not entirely fair. You may have changed; but rather than startle everybody, you aren't showing it.

With new acquaintances who have no preconceived notions, you can be the different person you feel like being now and no one will say, "What's come over you?"

Be Yourself

This is not to recommend for one minute that you pretend to be the kind of person you're not. An abrupt about-face isn't advisable for anyone because it's just not natural. But it does mean, for example, that if you have a reputation for being a bookworm or a stay-at-home and feel an urge to get out and mix more, and be gayer and friendlier, follow that urge. Or if everyone now thinks you're a butterfly when all the

time you'd like to take up more serious things, this new situation is a fine opportunity to make the change.

What others think of you perhaps shouldn't, but does, affect your behavior. Even though you dread new circumstances with new people about you, the move you make should be appealing because it offers such great possibilities. Think it over. Are you behaving in exactly the way that expresses your true self? If you aren't, take advantage of the change and make improvements.

TOMORROW: Figure Fascination.

Mrs. Dorsey Entertained

Mrs. Franklin Dorsey, the former Miss Betty Grove of Bowing Green who was married recently, was guest of honor at a dinner and shower at the Ali Ghan Shrine Country Club Tuesday evening. Places were set for ten at the table which had a floral arrangement of red and white carnations and gladiolas as a centerpiece.

Those attending were Mrs. T. L. Grove, Mrs. Lawrence Grove, Mrs. Richard C. Wilkinson, Mrs. Frank Ryan, Miss Marty Ewing, Miss Shirley Johnson, Miss Joy Jackson, Miss Harriet Oliver, and Miss Eleanor Grove.

Personals

Mrs. and Mrs. A. W. Carroll, 209 Grand Avenue, and Mr. and Mrs. Gareth D. Buchholz Jr., Bedford Road, have returned from an extensive tour of New England states and Cape Cod.

Mrs. Wanda Hockard, 210 Pear Street, is a surgical patient in Sacred Heart Hospital.

Mr. and Mrs. Walter Wertz, LaVale, are spending their vacation with their son and daughter-in-law, Mr. and Mrs. Milton Wertz, Chicago.

CCC Plans Labor Day Dance

The Cumberland Country Club will begin Labor Day activities with a dance Saturday evening for members and their guests. Music will be by Dox Dibert and his orchestra from Pittsburgh.

A Labor Day buffet supper will be served September 2 from 5:30 until 8:30 p. m.

A Junior Golf Tournament will be held today and tomorrow, with tee-off time at 9:30 a. m. The boys will play 18 holes each day and the girls nine, with gross prizes to be awarded. Contestants will be divided into two age groups, 12 and 14 years and 15 and 16 years inclusive.

Marriage Licenses

Miss Sophie Otvenski, daughter of Steve Otvenski, Wheeling, W. Va., became the bride of Donald M. Bowling, son of Mr. and Mrs. Donald E. Bowling. The ceremony was solemnized in Eckhart Baptist Church with Rev. Brooks Henry officiating.

The bride is a graduate of Wheeling High School, class of 1955 and Mr. Bowling is a graduate of Beaver High School, class of 1955. Both are attending Concord College, Athens, W. Va., where they will reside after a short wedding trip.

Social Chart

Bedford Road Fire Company Ladies Auxiliary will hold a festival Saturday at 5 p. m. at the Fire Hall.

The 60th annual reunion of the Smouse family will be held at Egolf Grove, near Bedford Saturday. It will be an all-day affair.

The annual reunion of the Christian Miller family will be held Sunday at Fairview Christian Church, Artemas, Pa. A basket lunch will be served at noon with the business and entertainment program scheduled to begin at 2 p. m. Genealogy books will be available.

September Parole Traded For Eight Hours Of Freedom

CHESTER, Ill., Aug. 29 (AP)—A penitentiary inmate traded a September parole this week for eight hours of freedom, most of it spent walking along a hot, dusty southern Illinois railroad track.

He was 35-year-old Charles Smothers who walked away from a tomato picking gang on the Menard prison honor farm.

Smothers, from the Marion, Ill., area, had three times before been paroled from his 1939 one-year-to-life sentence. Each time he had been returned as a parole violator.

Since Smothers was scheduled for parole next month, Warden Ross Randolph asked him why he walked away.

"It was just one of those things," replied Smothers.

One pair of horseflies and their progeny, if all survived, could produce 191 quintillion flies in a year in Indian reservations than any other state in the Union.

Fatal Role Of Car, Driver Comes True

EAST ORANGE, N. J., Aug. 29 (AP)—The fatal role of an auto and its driver in a TV play came true yesterday.

Joseph R. Lynch Jr., 26, was killed when his car collided head-on with a bus. The auto, a well-preserved 1938 convertible, was demolished.

Lynch was driving home from New York. The car had been used as a prop in filming CBS-TV's "Studio One" drama, "The Night America Trembled." The play will be televised later.

In the TV play the car and its driver are shown headed for a curve and a fatal crash.

The bus driver, Alexander Meikle, 37, and six passengers were treated at Orange Memorial Hospital. One passenger, Thomas A. Dempsey, 42, was detained with head injuries.

Arizona has twice as many national monuments and more land than any other state in the Union.

Five Go On Drinking Spree In Interest Of Science

NEWARK, N. J., Aug. 29 (AP)—spree ended at 6:30 p.m. By that time each volunteer had consumed just a little more than half a fifth of liquor.

Five fellows, all anonymous, rallied around and, in the interest of science, began to soak up the stuff.

The point of it was to check the reliability of the drunkometer test with the thought that the Legislature might want to make it mandatory for suspected drunken drivers.

The experimental drinking

times longer than it was 35 years ago.

The average life of an automobile tire today is about five years.

After each man had his turn, he kept on drinking three ounces. It had to be consumed in half an hour each time. Then the tests followed.

That kept up all day, see? His

Just so the five wouldn't get

bored, they also had food, television, cards and books on hand.

Scientific results of the tests

weren't disclosed immediately.

Then, the five sat down to drink on, appropriately enough, a staggered schedule.

The first—pardon, the first—drinker polished off three ounces of scotch. He washed it down with orange soda. What that will do to a man's reaction time was not disclosed.

Then he blew into a balloon on a solution of potassium permanganate as a part of the test.

Twenty minutes later, the sec-

ond man tossed off his three

ounces and took his tests.

weren't disclosed immediately.

Then, the five sat down to drink on, appropriately enough, a staggered schedule.

The first—pardon, the first—drinker polished off three ounces of scotch. He washed it down with orange soda. What that will do to a man's reaction time was not disclosed.

Then he blew into a balloon on a solution of potassium permanganate as a part of the test.

Twenty minutes later, the sec-

ond man tossed off his three

ounces and took his tests.

After each man had his turn, he

kept on drinking three ounces. It

had to be consumed in half an

hour each time. Then the tests

were followed.

That kept up all day, see? His

Just so the five wouldn't get

bored, they also had food, television, cards and books on hand.

Scientific results of the tests

weren't disclosed immediately.

Golden Gifts Unit Is Over Half-Way Mark

Contributions to the Golden Gifts Division of the County United Fund have soared to \$70,000, or 56 per cent of the division's goal of \$125,000, Lewis J. Ort, CUF campaign chairman announced yesterday. Ort made the announcement in the absence of William A. Douglas, Golden Gifts chairman, who is on the TIMES-NEWS tour of Europe.

The new total represents a gain of \$15,000 over the \$55,000 pledged to Golden Gifts when the division campaign opened last Saturday. The biggest single gift of the last six days was \$6,000 received from the Kelly-Springfield Tire Company.

"Kelly-Springfield has always been a mainstay of community affairs," Ort said, "and it is gratifying to see this company maintain its position as a leader in the industrial life of Greater Cumberland."

The CUF chairman praised the efforts of Golden Gifts workers, the "shock troops" of the County United Fund, who are out after the big gifts to provide a running start for the October CUF drive.

"Think of it," he said. "They have already reached 28 per cent of the over-all campaign goal of \$250,000, and they're just getting started. Everybody in the CUF area can be proud of the efforts of these devoted men. The results show that the people of this area are ready for one concerted United Fund, and that the workers are bending their efforts to the will of the people."

Ort pointed out that there is "spirited" interest in the Golden U Club of the Golden Gifts Division. A gift of \$100 or more is required for membership in the club, and a gold lapel emblem symbolic of United Fund is awarded to members.

Firms and individuals added to the list of big givers previously announced include:

\$6,000 and Over — Kelly Springfield Tire Company.

\$2,000 and Over — Liberty Trust Company.

\$700 to \$899 — Buchanan Lumber Company.

\$400 to \$499 — Thompson Buick Corporation, and George Funeral Home.

\$200 to \$299 — Peskin's, Incorporated; Hout Construction Company; Ankeny Company; R. G. Robeson; and F. T. Bell.

The County United Fund was organized to meet the health, welfare and youth needs of all bona fide agencies, whether or not they affiliate with CUF. The area covered includes Cumberland, Frostburg, George's Creek, Keyser, Tri-Towns, and all of the communities surrounding these sections.

Dam Hearing Set Sept. 12

A hearing has been set by the State Department of Geology, Mines and Water Resources, on the application of a local man and his brother to construct a dam across Evitts Creek just north of Route 51, the Oldtown Road.

James A. Avrett, this city, and John W. Avrett, Baltimore, have asked for a permit to put the dam 200 feet north of Route 51 and 1,200 feet north of the mouth of Evitts Creek with the Potomac River.

The application states the impounded area would be for a fishing and recreation pond.

The hearing has been set on the application in the state department's office, Room 102, Latrobe Hall, Johns Hopkins University, Baltimore, at 11 a. m. Thursday, September 12.

The department stated objections to the granting of this permit may be presented orally or in writing at the hearing.

It is understood from city sources that the 18-inch city water main to Pittsburgh Plate Glass Company's plant at North Branch, and the forced sewage main to the sewage treatment plant, goes through the Avrett property.

Local Air Reserve Training To Begin September 10

First semester training periods in September, three in which can qualify on the basis of the Cumberland Flights of the October, and a total of seven in military or civilian training and the 9511th Air Reserve Squadron will November, December, and January.

First semester training periods in September, three in which can qualify on the basis of the Cumberland Flights of the October, and a total of seven in military or civilian training and the 9511th Air Reserve Squadron will November, December, and January.

Maj. Fauss emphasized that Hagerstown and Frederick, with

not less than ten of the 12 scheduled, by the Air Force, and those parti-

cipated in the first semester, capping accumulate credit to Hancock.

The two-semester training per-

iod will run from September 1958, with the

Some openings are still avail-

able in these flights for those two-hour sessions.

In addition to the flights here, the 9511th Air Reserve Squadron also conducts training flights in Hagerstown and Frederick, with new flights planned for Martinsburg and Charles Town, and Ceylon who practices in Malaya and will be his adopted country's envoy to India.

Additional information is available from the Air Reserve Center, 602 Potomac Avenue, Hager-

town, telephone REgent 3-4911.

Adopted Envoy

SINGAPORE, Aug. 29 (UPI)—Independent Malaya's first high commissioner (ambassador) to New Delhi might be called a commonwealth man. He is S. Chelavasinam Macintyre, a lawyer from Ceylon who practices in Malaya and will be his adopted country's envoy to India.

Ask for Master Sergeant Albert L. Wiley or M-Sgt. H. J. Noble.

City To Take Part In Sampling Of Water From Potomac River

The Department of Streets and Commissioner added he had Public Property has agreed to agree to the plan in the best interest of the community and area in general and as further move to attract industry.

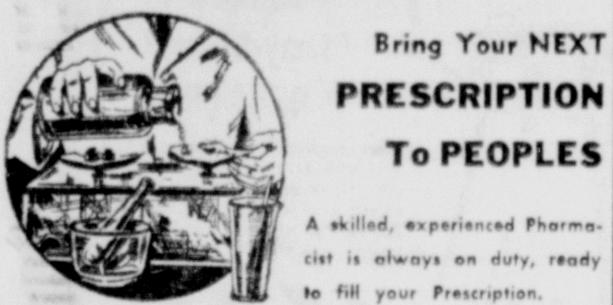

Agreement was reached July 10 at a meeting in Buchholz's office. It will require collection in the laboratory of the new sewage treatment plant by the approximately six samples from technician, Joseph F. Divico, who was appointed Monday. The city of the city.

Cumberland's laboratory is one of at least three municipal labs participating. One of the objectives, according to Gilbert L. Kelso, consultant, is to establish uniformity of procedures in the field so that data collected at all points on the river is comparable. If necessary, Kelso said, special training will be provided for Divico.

Crab Louis

1 pound crab meat
1 head lettuce
 $\frac{1}{2}$ teaspoon salt
1 cucumber, sliced
4 tomatoes sliced
3 hard-cooked eggs, sliced

Remove any shell or cartilage from crab meat, being careful not to break the meat into small pieces. Shred lettuce and place in a large shallow salad bowl. Sprinkle with salt. Arrange the crab meat over the lettuce. Around the edge place alternate slices of cucumbers, tomatoes, and eggs. Spread Louis Dressing over crab meat. Serves 6.

WIFE PRESERVER

If you have a little broccoli left over from a meal, mix it with the eggs you are scrambling for breakfast or luncheon for a delicate flavor.

Rats and mice have gestation periods of about three weeks.

Start Supper With A Cold Soup

It's a cool cook who serves frosty cold soup when the temperature's rocketing. For piquant-packed flavor, try frozen cream of shrimp soup blended with chopped celery and a dash of onion juice. To prepare this "pink and pretty," combine a 10-ounce can frozen condensed cream of shrimp soup, $\frac{1}{2}$ cup can milk and $\frac{1}{2}$ cup can water in saucepan. Heat slowly until soup is thawed and smooth; stir often. Then add $\frac{1}{2}$ cup finely chopped celery and dash of onion juice, if desired. Chill until icy cold; serve in 3 chilled soup bowls.

Do You Cook Vegetables The Flavorful Way?

Have you ever noticed the natural flavor of vegetables that have been cooked without or with very little water? This is a secret of vegetable cookery, says Miss Janet Coblenz, an extension nutritionist at the University of Maryland.

Recall the carrots and potato flavors when cooked outdoors, over hot coals and in aluminum foil. And—does your "mouth water" at the thought of a baked potato?—Or the sweetness of cabbage cooked only five-seven minutes?

Onions

Miss Coblenz gives the following rules for vegetable cookery. She assures you a new flavor treat if you follow them—plus a saving of the valuable vitamins and minerals.

1. Cook vegetables just long enough to be tender.

2. Have the water boiling when the vegetables are added.

3. With the exception of green vegetables, cook them in a saucepan made of medium weight metal with a flat bottom, straight sides and a tight-fitting lid. Less water and fuel is needed this way.

4. Cook vegetables just long enough to be tender.

5. With the exception of green vegetables, cook them in a saucepan made of medium weight metal with a flat bottom, straight sides and a tight-fitting lid. Less water and fuel is needed this way.

6. Have the water boiling when the vegetables are added.

7. With the exception of green vegetables, cook them in a saucepan made of medium weight metal with a flat bottom, straight sides and a tight-fitting lid. Less water and fuel is needed this way.

8. Serve the vegetable as soon as possible after it is cooked.

9. Baking, steaming (using small amount of water) panning and cooking in the skins helps retain food values and delicious flavor.

10. Whenever possible, use the water in which the vegetables have been cooked in vegetable juice cocktails, gravies and soups.

11. Serve the vegetable as soon as possible after it is cooked.

12. Baking, steaming (using small amount of water) panning and cooking in the skins helps retain food values and delicious flavor.

13. Enjoy the fresh, natural, sweet flavor in this 7-minute cabbage. Select a dark green cabbage head with tender leaves.

14. Shred cabbage. To shred, cut

15. Lower the heat after the vegetable has been added to the water and the water has returned to the boiling point.

16. Avoid cutting vegetables in small pieces or letting them stand in water before cooking, as it causes greater loss of vitamins and minerals.

17. Whenever possible, use the water in which the vegetables have been cooked in vegetable juice cocktails, gravies and soups.

18. Serve the vegetable as soon as possible after it is cooked.

19. Baking, steaming (using small amount of water) panning and cooking in the skins helps retain food values and delicious flavor.

There's nothing so leisurely or refreshing as a delicious snack which you can enjoy out on the porch or patio. Here's just the thing to serve: Frosty Mocha Java and a plate of little sandwiches or cookies.

Frosty Mocha Java, A Cool Combination Of Coffee And Cocoa

Something tall, something cool! Coffee, cocoa and a bit of ice something delicious — that's the cream — that's all you need to description of the perfect warm-up! Frosty Mocha Java in weather refresher. The best sum-a-hurry. The coffee is easy to mertime cooler you're apt to find prepare, of course, and the cocoa is Frosty Mocha Java, a winner can be quickly made from any of on all three counts. Served with the prepared cocoa mixes. Just a plate of sandwiches, it makes put the two beverages together, a fine luncheon drink. By itself, top the mixture with ice cream, Frosty Mocha Java is an ideal and there you are!

Frosty Mocha Java

1 1/2 cups strong coffee, hot or cold

1 1/2 cups cocoa beverage

1 pint vanilla, coffee or chocolate ice cream

Combine coffee and cocoa, stirring thoroughly. Chill mixture. Divide evenly between four tall glasses and add 2 scoops of ice cream to each glass. Serves four.

Sparkling Gravy For Meats

Outdoor fireplaces get the play during warm weather, as do convenience foods... so that there's plenty of time for enjoyment. Take advantage of canned beef gravy (low in calories) to sauce up your meats, cooked outdoors or in. Combine 1 can (10 1/4 ounces) beef gravy with 1 can (1 pound) whole cranberry sauce in a saucepan. Heat, stirring occasionally. Serve over cooked ham, hamburgers or cold meats. Makes 3 1/2 cups sauce.

Holiday Guests Sure To Like Lamb Loaf

Ground meats play a leading role in summertime menu planning. Can you imagine a picnic without a hamburger? However, at times, hamburgers and other individual picnic specialties just in the kitchen preparing and planning don't seem to fit into the plans for certain occasions.

In the case where you'll be entertaining holiday or weekend guests this summer, time spent in the kitchen preparing and planning meals will undoubtedly be at a premium.

Therefore, the use of ground lamb, served in the shape of a loaf, this meat entree takes little time to prepare and once in the oven, it requires no watching. Just a hint of marjoram and grated onion gives this loaf a flavor hard to beat. Broiled pineapple slices, potato chips, fruit gelatin salad, hot rolls and dessert are perfect escorts for lamb loaf whether the meal is served or planned as a buffet.

Lamb Loaf

1 1/2 pounds ground lamb
1/2 cup milk
3 slices toast, crumbled
1/2 teaspoons salt
1/4 teaspoon pepper
1/4 teaspoon marjoram
2 tablespoons grated onion
2 eggs, beaten
1 cup frozen peas
Pour milk over crumbled toast and soak 5 minutes. Combine all ingredients and mix thoroughly. Pack into a 5x9-inch loaf pan and bake in a moderate oven (350 degrees F.) for 1 hour. Yield: 6 to 8 servings.

So tender... so tasty!

BARBECUED CORN

Husk ears of corn carefully. Spread with lots of butter, and sprinkle generously with Sterling Salt. Wrap each ear in aluminum foil. Roast over hot coals for about 10 minutes, turning often. Corn cooked this way in the oven has a wonderful barbecue flavor, too!

P.S. Any dish has extra zest, extra flavor richness when cooked and seasoned with Sterling Salt!

STERLING SALT
brings out the best in food!

Television And Radio

by John Crosby

While John Crosby is on vacation, his column will be conducted by guest writers.

Leave Us Something

BY ARLENE FRANCIS

It is said, perhaps apocryphally, that there is no fan in the world like a Giant fan. They are loyal, steadfast, and true blue. If Willie can't hit and Antonelli can't pitch, and the hot dog business at the Polo Grounds can be covered by only one jar of mustard, the genuine fan still remains faithful. Well, I am that way about the Jints and I am that way about New York. In fact, "that way" is the precise modern idiom to describe my feelings.

If I am in France or Frankfort or Franconia Notch, it is New York I think about. I might stand on the steps of Sacre Coeur with the sun pouring down on Utrillo's narrow streets and cry out at the breathtaking beauty of Paris, but I know that in my heart my line is the skyline of Manhattan. When I took a boat from the "Tower of Tears" in Amsterdam where the women wept while Hendrik Hudson sailed forth, did I dwell on those ancient historical days? No, indeed. I thought of the mouthwatering thrill I have every time I see the magnificent bridge spanning the river that bears his name. I get a bigger message from the pigeons that raise havoc with my air conditioners than the famed feather friends at St. Marks.

I know there is loveliness and excitement and mystery all over the world. I also know I can find it in one square block in New York, and there are others like me. Others who get a catch in their throats looking out a window at twilight, or who get furious at the Fifth Avenue parades halting traffic, but find themselves humming along with marching bands and buying balloons for the children. And there are those of us who hear no sound sweeter than the crunching leaves of autumn under foot in Central Park. And on and on and on. It is to all of these loyal lovers of Peter Stuyvesant's town I now appeal. We must band together to perpetuate this glorious shrine and see that nothing more is taken from it.

I remember when my husband, Martin Gabel, and I were part of the Mercury Theatre with Orson Welles. Then the Broadway arena was a network of active playhouses and if half the productions were thrown to the lions a man could pass a hat along Shubert Alley and raise enough money to start another. Today, one failure can send a person of creative talent into the insurance business. And we all know what has happened to the out-of-towner who used to come to New York to "see the shows." Now he comes to find out if his cousin who has a dubious connection can, for fifty dollars, get him a place to stand on the same block where "My Fair Lady" is playing.

We have allowed our Broadway theatre to shrink. We stand still while Hollywood took our writers and our actors and the unions took the rest. And only the energy and adventure off-Broadway may keep us alive.

The baseball picture is even dimmer. We have lost the ball game and the coast has won. And if we didn't have the enthusiasm to hold on to two great clubs, I guess we deserve to lose. The West is a young, insatiable, ambitious giant—and the East has behaved like an ostrich.

And now, to put the cherry on the Charlotte Russe, California has cornered the television empire. Here we sat all dressed up in our grey flannel suits, our hands so filled with contracts we didn't feel the electrons slipping through our fingers and heading West—where studios were being built for them; and red carpets were being laid out; and whole cities were being designed to cater to their every wave length. Today, eighty per cent and more of television is born within shooting distance of Forest Lawn.

In some ways it is a comment on our television times that the best that is "live" comes from our town and that we are permitting that life to be squeezed out of us until we are nothing but endless ribbons of celluloid in California cans. Maybe it is true that the brisk climate that prod-

Corn Puffs Curry

1 cup mashed potatoes
1 can (12 or 16 ounces) whole kernel corn, drained
1 small onion, minced
2 eggs
1/2 cup flour
1 teaspoon baking powder
1/2 teaspoon salt
1 teaspoon curry powder
Fat, for frying

shallow or deep fat; cook until brown, turning once. Drain on absorbent paper. Serve hot. Makes 12 to 15 puffs.

March is the least popular of all months in the year for matrages in the United States.

Mix together potato, corn and onion. Add eggs; beat well. Blend flour, baking powder, salt, and curry; stir into potato-corn mixture. Drop by spoonfuls into hot fat.

DAIRY QUEEN
Route 28—Ridgeley

The one mayonnaise with deluxe flavor—...Mrs. Filbert's!

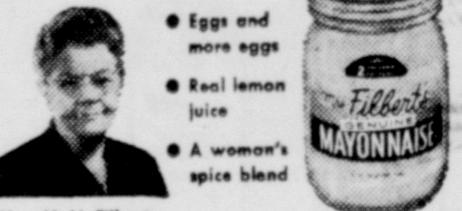

MRS. FILBERT'S MAYONNAISE

So much fine flavor you actually use less! A dab of this *deluxe flavor* mayonnaise does as much for your salads as a big spoonful of the ordinary kind!

Mrs. Filbert's is *genuine* mayonnaise, made to taste homemade. Creamy-rich with extra eggs. Tangy with real lemon juice, a woman's own spice blend. Guaranteed to taste as good as homemade or your money back!

Taste that "homemade" flavor

City Requests Board To Pick Trailer Sites

The Mayor and Council yesterday, through City Attorney Thomas B. Finan, requested the City Municipal Planning and Zoning Commission to select areas for trailer parking.

The letter from the Mayor and Council asking action was sent to the commission chairman, James A. Avirett.

Finan suggested that trailers should be allowed generally in areas zoned industrial within the city.

Other areas, where there are no serious objections from the residents, either in business or residential zones, would furnish a happy solution, the solicitor added.

However, the city attorney suggested that it would be wise to bypass those sections zoned business, where there are still good residential properties such as on Oldtown Road and Greene Street, Finan pointed out.

Finan said he would appreciate it if the commission would take the latter as a request from the Mayor and Council to proceed to hold the necessary public meeting.

Crash Victims Improve At Local Hospital

Mr. and Mrs. Frederick W. Peters, both injured Monday in a truck-car collision on U. S. 220 south of Petersburg, W. Va., are improving in Memorial Hospital here where they were admitted after the accident.

Trooper R. L. Mozingo of the Petersburg detachment of the West Virginia State Police said Mr. Peters, 63, of Pittsburgh, Pa., faces possible motor charges in the accident which occurred in the rain.

The car Mr. Peters was driving skidded while rounding a curve and struck a chicken truck driven by Keith McKile of Upper Tract, W. Va., who was uninjured.

Given under our hands this 27th day of August, 1957.

Friday Morning, August 30, 1957

The Labor Day Weekend Starts

Labor Day, once an occasion for parades and oratory in the larger cities, still retains some vestiges of its original lineaments. But observance of the day has changed markedly.

As the three-day Labor Day weekend goes into high gear, anyone who uses his eyes, and his imagination to fill in the vast picture that no pair of eyes can encompass, will be aware of incredible activity going on all around him.

Traffic on the highways is thick as the workers of America drive their millions of automobiles to water spas or to the mountains. Lakes and streams are dotted with boats bearing fishermen. Picnic sites are filling up with families armed with shiny new picnic outfits—and plenty of food. Beaches swarm with people playing in the sun.

Not everybody will be resort-bound, of course. Millions of suburban yards will be the scenes of family gatherings, where fathers clad in aprons and chef caps will be turning out steaks for hungry admirers.

Other Americans will take this opportunity to work around the place—painting, cutting the grass, weeding the flower border, harvesting the home-grown vegetables. Still others will take short trips to golf courses and outdoor movies.

It's not all beautiful, this picture. There will be accidents on the highways, and death will come to hundreds before Tuesday morning. Carelessness and selfishness will play their parts in these tragedies. Yet the over-all scene is one everyone can take pride in—and be thankful for—because all but a few will make good use of their right to "the pursuit of happiness."

These Days

By George E. Sokolsky

Russia And America

I have been reading an interesting, even an exciting little book entitled "Russia and America—Dangers and Prospects" by Henry L. Roberts who is the Director of the Russian Institute at Columbia University. The book is a summary of more than two years of conferences in the Council on Foreign Relations, a private organization which devotes itself to such matters.

On the whole, this is undoubtedly the most reasoned and most reasonable statement of our foreign policy that has yet appeared. That does not necessarily mean that everybody will agree with every paragraph of Roberts' book. Although it was written before the great changes that Khrushchev ushered in on his march toward supremacy and before the State Department sought to convince the American people that Marshal Zhukov was the really big man, Roberts wrote:

"It has been suggested, too, that a) the (Communist) regime might 'regress' to a more traditional Russian pattern, or b) the bureaucrats and technicians (including the military) might come to outweigh the party and produce a managerial or technocratic system. With regard to the former, it is hard to envisage just what this 'regression' would result in, especially since the Soviet regime in the course of its existence has taken over and utilized a number of traditional Russian patterns without having its purposes perceptibly diluted. At most, such traditionalist tendencies are likely to be more of a drag on the regime than an active force for change."

His understanding of the "managing elite" in Soviet Russia, is correct. These people have a vested interest in the continuance of their system and of themselves and their children in the "managing elite," with all its privileges. They have therefore become orthodox in their Marxist ways and whoever seeks to weaken the Communist Party imperils them. This is now the real strength of Khrushchev, who heading the party will not permit its power to be reduced.

It is gratifying to find in a book issued under such auspices as the Council on Foreign Relations such a paragraph as this:

"...Recent research on the Soviet system has shown that the presumed reversions to normalcy of the late 1930s and early 1940s—the Popular Front as a form of multiparty cooperation, the 1936 constitution, the fostering of Great Russian nationalism, the announced dropping of the Comintern, the adoption of a new national anthem to replace the Internationale, etc.—did not affect the basic structure of the state, the party or the Communist ideology. Soviet foreign policy has remained an instrument of the total system. In 1943 and 1944, well before the postwar chilling of the alliance, the U.S.S.R. was setting up the conditions for the cold war, warning the faithful that the basic conflict between capitalism and Communism remained at the core of the historical process, that the wartime cooperation should not lead to illusions."

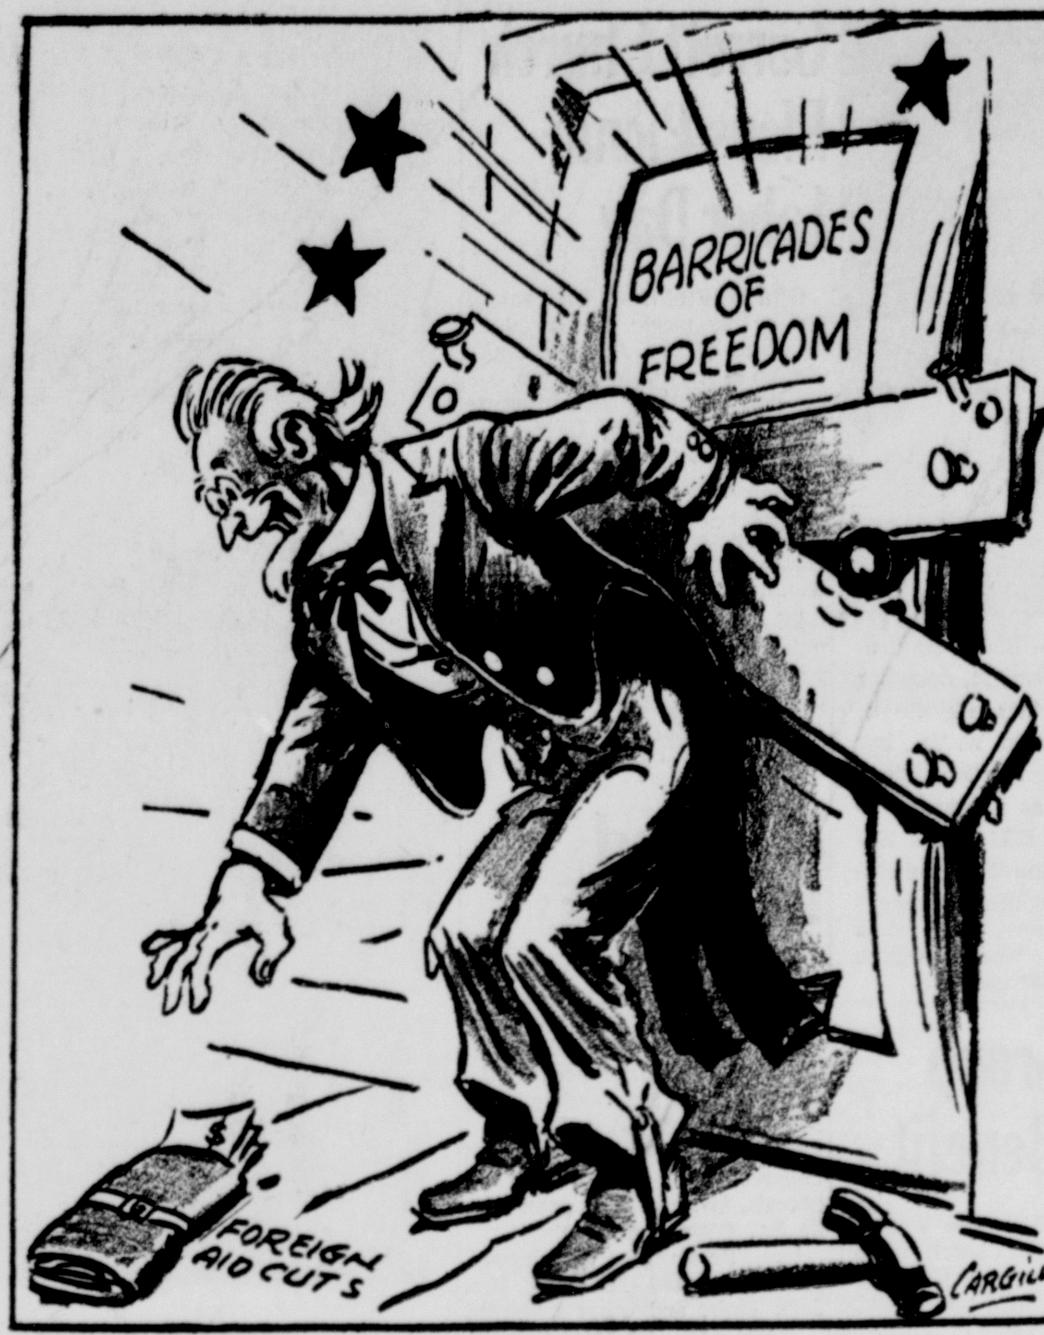

Some of us who reported at the time were either called Fascists or fanatics, but the facts now stand out and many a reputation for expertise is destroyed a decade later by the inevitable exposure of the truth. What during the war years was regarded as expertise is now known, in many instances, to be little more than propaganda to make an ugly alliance with Soviet Russia palatable to a people who despised the Bolsheviks. This vast, government propaganda to make us love the Russians originated in a document which Harry Hopkins brought to the Quebec Conference in August 1943 and which contained this prophetic opinion:

"...Since Russia is the decisive factor in the war, she must be given every assistance and every effort must be made to obtain her friendship. Likewise, since without question she will dominate Europe on the defeat of the Axis, it is even more essential to develop and maintain the most friendly relations with Russia."

It was Roosevelt's policy to rescue Russia from Hitler's might and we spent \$11,000,000 of direct aid to Russia doing it. This suicidal policy was, on the whole, popular with the American people and it is all history now. The result: we bought ourselves a powerful enemy whose object it is to destroy this country.

The value of this book, which now can be bought in paper covers, is that it hammers out the various arguments, pro and con, and the conclusions reached are generally on the right side. It is a valuable study for those who search for truth.

Penny Wise, Pound Foolish?

Ike's H-Bomb Plan Differs From Stevenson's

By David Lawrence

WASHINGTON—Memories are short—or at least some of the Democratic party's politicians in the Senate evidently think so. For three Democratic Senators in the last few days have made public statements trying to tell the American people that President Eisenhower's current proposals at the London Disarmament Conference to suspend nuclear tests are the very ones Adlai Stevenson had suggested and for which the Democratic Presidential nominee had been criticized in the 1956 campaign.

The official record shows nothing of the kind. It does show that Adlai Stevenson was willing, if elected President, to suspend nuclear tests without any agreement that Soviet Russia would do likewise. It shows also that the United States has consistently proposed that nuclear tests be suspended only if an agreement with Soviet Russia is reached on other phases of reduction in armaments. The White House on October 23, 1956, gave out the complete record which said in part:

"On November 11, 1955, at the Geneva Foreign Ministers Conference, Secretary Dulles stated that 'if agreement can be reached to eliminate or limit nuclear weapons under proper safeguards, the United States would be prepared to agree to corresponding restrictions on the testing of such weapons'..."

"On December 24, 1955, Pope Pius XII, in a Christmas broadcast, declared that the three steps of 'renunciation of experimentation with atomic weapons, renunciation of the use of such, and general control of armaments' must be effected together..."

"At the London meeting of the Disarmament Subcommittee, the U. S. delegation on April 3, 1956, put forward a working paper suggesting a step-by-step plan for a first phase of a comprehensive disarmament program including limitations on conventional armaments, provision against sur-

plus attack, including President Eisenhower's proposals for control of the nuclear threat, and limitations on the testing of nuclear weapons as part of a safe-guarded disarmament program. The paper included a proviso that the testing of nuclear weapons will be limited and monitored in an agreed manner, by an armaments regulation council which the U. S. proposed should be established. This proposal was not accepted by the U.S.S.R."

Notwithstanding these facts which had been widely published at the time each event occurred, Adlai Stevenson said in a speech on April 21, 1956, to the American Society of Newspaper Editors in Washington that the United States "should give prompt and earnest consideration to stopping further tests of

the hydrogen bomb," and then added:

"Of course, I would call upon other nations to follow our lead, and if they don't...and persist in further tests, we will know about it and we can consider our policy."

Two days later Senator Kefauver of Tennessee—who is one of those Senators now lamenting the attacks on Mr. Stevenson—said in a public statement:

"I think that anything we do along that line should be reciprocal. I wouldn't want this country to stop testing if they (the Russians) are going to keep on testing."

When the issue arose again in the campaign in the autumn of 1956, President Eisenhower on September 18 said:

Baering Down On The News

By Arthur "Bugs" Baer

An All-American weekend is tough enough to make a porcupine stop at a barbershop and have his quills honed.

If there's moss on the north side of your teeth it means you've spent your summer hunting owl eggs in the daytime. Labor Day gives you three more chances to bend your fenders on the last outdoor holiday.

My advice to all picnickers is don't let the doctor's assistant hand you mixed pickles. Why gaze on yourself next Tuesday morning and ponder, "Is that another scar or is that a crack in the mirror?"

Americans in Europe also celebrate our holidays like they want

Distributed by IPS

to look like the guy with the fire in the Spirit of '76.

Eleven of 'em popped corn in Mount Vesuvius, three got caught in a Swiss slapping dance and another seven did the Indian rope trick with a busted shoe-lace.

Another million or so will be bumper-to-bumper this weekend. When an American overhauls his lorry for a holiday trip the only thing he oils is the speedometer.

The genius who hitches his wagon to a star runs second to the screwball who tags on to a comet.

One thing no nation can take away from our cautious maniacs. Americans are the most careful one-handed drivers in the world.

(Copyright, 1957, New York Herald Tribune, Inc.)

Angina Diagnosis No Longer A Death Sentence

By Dr. Theodore R. Van Dellen

Recognized. No wonder the disease had so bad a reputation.

In angina pectoris, chest pain is due to narrowing of the coronary arteries that supply the heart muscle with blood. Distress varies from a dull ache to a crushing and viselike pain in the region of the breastbone. It usually follows exertion, excitement, or eating, but occasionally develops for no apparent reason.

Treatment has changed, too.

Nitroglycerin continues to be the medication of choice. A tablet is placed under the tongue each time pain develops. But modern therapy also employs this remedy as a preventive. The person learns to use it before doing anything he knows from experience will precipitate pain.

Many develop anginal pain, for example, after breakfast while walking to the station on the way to work. This is avoided by taking a tablet before leaving the house.

Tobacco no longer is banned in all cases, particularly in those who smoke a little for relaxation. Physicians frown on excessive drinking because large doses of alcohol overwork the heart and induce overweight. There is no harm in one or two cocktails—but no more.

Operations are available to improve the cardiac circulation but removal of the thyroid to slow down the individual is no longer recommended. Radioactive iodine is a good substitute for this procedure. A low fat diet helps reduce the amount of cholesterol in the blood. This decrease has a secondary effect upon hardened coronary arteries and helps keep the vessels open so they can function better.

RESTRICTED VISION

F. T. writes: What is your general eyesight?

In this condition, the field of vision is narrowed to a small area comparable to that which a person with normal eyesight sees when looking through a

Mamie Enjoys Her Hospital Stay; House Votes For Latin Dictators

By Drew Pearson

WASHINGTON — What White House Servants Are Talking About—How Mamie is getting such wonderful treatment at Walter Reed Hospital she almost doesn't want to go back to the White House. She's now been in the hospital almost a month. The nurses love her; she likes them. Recently hospital personnel had to go out and buy a special pillow for her. Cost: \$35.

What Congressmen Are Talking About—How Congressman Carl Vinson of Georgia stole the bill of Congressman Eddie Hebert of Louisiana requiring the armed services to restore competitive buying. Hebert had conducted a sensational investigation exposing the manner in which the Army, Navy, and Air Force had squandered the taxpayers' money by giving contracts to their favorite contractors without competition. Vinson of Georgia sat on the sidelines. After Hebert did the spade-work, Vinson suddenly introduced the bill Hebert was introducing, took all the credit himself.

What The Governors Are Talking About—Fow the Governor of Florida, Leroy Collins, will speak at Sea Island on the dynamite-laden question, "Can a Southerner be elected President?" The Governor of Florida is one of the most farsighted north or south of the Mason-Dixon line. Other governors are watching to see how he handles segregation.

What The Children Are Talking About—How their nature center,

established in Washington's Rock Creek Park at a cost to taxpayers of \$50,000 is being moved because of complaints from a Senate stenographer.

John D. Rhodes, official reporter of Senate debates, complained that kids arriving on buses to visit the center made too much noise and trampled his grass. The Interior Department has now promised the nature center will be moved.

What The Latin Americans Are Talking About—Congressman Charlie Porter's amendment to the foreign aid bill banning direct military or economic aid to any Latin American country which the State Department determined to be a dictatorship. Congressmen voting for the dictators: 171. Congressmen voting against the dictators: 4. They were: Cooper (Tenn.), Boyle (Ill.), Reuss (Wis.) and Porter (Ore.). Porter introduced a second amendment in exact conformity with the Pan American Union's requirement for preference to democracies under the military loan fund. Congressmen who voted for the dictators: 168. Congressmen who voted for democracies: 6. They included, in addition to the above, Hagen of California and Wier of Minnesota, all Democrats.

What Newspapers Are Talking About—The provision in the post office bill which would cost Life magazine \$9,310,000, and Readers' Digest \$4,172,000. It's the amendment by Cong. George Rhodes of Reading, Pa., limiting any one magazine's subsidy to \$100,000 a year. Hemphill of South Carolina, both Democrats, pushed the bill and it passed the House. The big magazine lobbyists are trying to knock it out in the Senate. Cong. John Moss of California reports that in ten years first class mail has shown a profit of \$646,404,480; second class mail a deficit of \$2,000,000. The taxpayers paid two billion dollars in ten years to help the big magazines.

What The Lobbyists Are Talking About—How Cong. Thomas B. Curtis, Republican of Missouri, managed to stymie the bill to plug loopholes in the tax law. He managed to get special

permission from the rules committee to offer an amendment on behalf of the big insurance companies. Big business has a lot of friends on the rules committee. This special favor for insurance companies got Chairman Jere Cooper of Tennessee so indignant he held up the entire tax loophole bill rather than continue a loophole for one group.

What The Critics Are Talking About—The new book by Nevil Shute, "On The Beach." It takes us into the next war, which is over in a few days with all the northern hemisphere wiped out, and shows life in Australia as it waits for radioactivity gradually to blot out that continent. The rest of the world has already been poisoned and Australia awaits a similar fate as the winds drift south. The war, incidentally, started between two friends, Russia and China, and the United States got into it by accident because we thought we were going to be attacked.... Also they're talking about the new mystery thriller, "The Terrible Game" by Dan T. Moore, sometime counterespionage for the OSS. Terrific summer reading.... Also the new Broadway musical "West Side Story" just opened in Washington. Despite the heat, you couldn't get a seat.

Justice Studies Art

The National Gallery of Art is usually crowded when Dr. Hammond S. Stites, curator of educational work, is delivering a lecture or conducting a tour. Anyone with a genuine interest in art is welcome in his free "classes," which include taxi drivers, housewives, teachers, bankers, government workers, and Sen. Theodore Green of Rhode Island.

Another who often attends the lectures on a Sunday afternoon is a plainly-dressed, white-haired man who came up to Stites the other day and said:

"I get a great deal of pleasure out of your talks."

"I've seen you here before," replied Stites. "But I've seen you somewhere else in the past. Perhaps in Cleveland. I'm from Ohio."

"So am I. I used to be the Mayor of Cleveland," replied Supreme Court Justice Harold Burton.

(Copyright, 1957, The Bell Syndicate, Inc.)

On The Side

By E. V. Durling

A prevalent weakness among women is to forget to put dates on letters. So I note it claimed. I haven't noticed that. However, one thing that I have noted appearing in the majority of feminine communications is a postscript. It was E. V. D. S. who said, "A woman seldom writes her mind but in her postscript."

ASKING

Queries from clients. Q. What was the first college football team to number its players for program identification? A. Washington and Jefferson. Nearly fifty years ago. To be exact, in the season of 1908. Q. I claim the fastest regularly scheduled train of the British Railways is "The Flying Scot" between London and Edinburgh. Right? A. You lose. It is the "Caledonian" between London and Glasgow. The Caledonian makes the 401-mile trip between those cities in six hours and 40 minutes. Q. After a date a man sent me flowers the next morning. It was a bunch of daisies. What does that mean in the language of flowers? A. According to the best authorities on the subject it means "I won't tell."

ASIDES

If Mrs. Ruth Holloway of San Francisco who recently became a grandmother at the age of 29 isn't this country's youngest grandma, who is?... The most popular dress model in Paris is now an Irish-American girl named Barbara Mullen. Paris models get the equivalent of \$20 an hour and during the busy season often work 14 hours a day.

NUMEROLOGY

Having or inserting a "y" in your first name increases your chance of success. So a numerologist claims. I have heard the same thing about the letter "h." Anyway, it is the policy of this department to check all claims. I note that four of six top candidates for a current title contest have "y" in their first names. They are Cathy, Madelyn, Marilyn and Carolyn. As for other successful females so named, I haven't checked extensively. Still there is Jayne Mansfield. Perhaps if you have a daughter named Irene she should change it to Irene.

HORSES AND WOMEN

A recent survey has revealed that the measurements of the average British young woman in the 18 to 29 age group are Bust, 35; Waist, 25; Hips, 37½ (35-25-37½). Marilyn Monroe's measurements are Bust, 38½; Waist, 23; Hips, 36. (38½-23-36). Incidentally, the British survey as to the average female measurements in different age groups was made so women could find better fitting and a wider variety in style of ready to wear clothing available at establishments specializing in that type of attire.

SPEED</h3

Frostburg Factory Goal Near Half-Way Mark Of \$40,000

How To Keep Cool

Shapely girl in bathing suit sits on block of ice. That is a time-honored formula for hot weather newspaper pictures. The pretty subject here, holding an ice cream cone and surrounded by five tons of ice, is Betty Enicks, a graduate student in mathematics at West Virginia University. Betty is from Miami, W. Va.

Youth For Christ Rally Set

MEYERSDALE—The Tri-State Youth for Christ will be conducted in Meyersdale Saturday night at 7:45 o'clock.

The feature of teenage participation will be the Bible quiz between the Maryland and Pennsylvania quiz teams. The goal of the

Renew Appeal For Big Pledge

FROSTBURG — Miss Margaret Jones, a member of the committee promoting the campaign to secure pledges for \$80,000 to erect a plant for an undergarment factory here, revealed today that the company has promised that if the community will raise \$70,000 it will add the other \$10,000. Miss Jones said that with this \$10,000 pledge the drive now stands at the half-way mark with a total of \$40,000 subscribed. Most of these pledges, she said, are from individual citizens not in business and are mostly for one share of \$100. Unless more pledges of greater amounts are forthcoming, she stated, Frostburg will definitely lose this plant to another community in the area which has already raised funds enough to erect the plant.

Members of the committee are planning to visit fraternal, service and other organizations in the community to enlist enough helpers to make a house-to-house canvass and see if Frostburg really wants the plant. Miss Jones said that the Borden Milling Company has given a price on the grounds of the proposed factory and promised to pledge half of the total sales price to the factory.

Miss Jones pointed out that names of all contributors are listed in the window of the Durst Company and that almost every day, one or more persons visit headquarters and pledges to take a share.

Garrett Church Plans Picnic Labor Day

GRANTSVILLE — The annual Labor Day picnic sponsored by members of St. Ann's Catholic Church at Avilton, near here, will be held Monday, according to Rev. DePaul Repko, OFM Cap., newly appointed pastor.

Country-style chicken and ham dinners will be served from noon until 6 p. m. Festivities will be climaxed by an evening square dance.

St. Ann's Church is located one mile off Route 40. Signs will be posted to direct people to the picnic area.

Father DePaul is also pastor of St. Stephen's Church here.

Midland Personals

Miss Connie Largent left by bus for Washington, where she boarded an American Airlines plane for her home in Oceanside, Calif. She spent six weeks here at the home of her grandmother, Mrs. Nellie Allen, Paradise Street.

Mr. and Mrs. Daniel Devlin and children, Baltimore, visited his parents, Mr. and Mrs. John Devlin Sr., O'Mara Avenue.

Mrs. Bessie Scott, Fairmont, W. Va., visited Mr. and Mrs. John Blair, and other relatives.

James Kroll, Painesville, Ohio, is visiting his parents, Mr. and Mrs. J. Edward Kroll, Broadway Street.

Mr. and Mrs. Carl Morris and daughter Susie, of Painesville, Ohio, visited her grandparents, Mr. and Mrs. Henry Eisentrout, Railroad Street.

Mr. and Mrs. C. Crumpler, Petersburg, Va., visited their mother, Mrs. Nellie Allen, and returned home with their two daughters, Suzanne and Loretto who spent two weeks with their grandmother.

Mrs. Beatrice Summers and daughters, Thomasine and Lisa Ann, are moving from Cleveland, Ohio, to the Llewellyn apartments, Railroad Street.

Mr. and Mrs. Joseph McCreary, Cumberland, have announced the birth of a daughter in Memorial Hospital. Mrs. McCreary is the former Phyllis Truly, daughter of Mr. and Mrs. William Truly Sr., Railroad Street.

In Washington, the Navy said today the tests were designed to determine the practicability and usefulness of aircraft power for surface vessels.

The YAG-37, a district auxiliary ship, attained speeds up to seven knots and proved maneuverable under various conditions. The Navy said it indicated possible future usefulness of this mode of power—for ships up to 13,000 tons when speed was not essential.

Clarinet keys are made of nickel, copper and zinc.

Sgt. Charles Murry Is Taking Training

MT. SAVAGE — Army Sgt. Charles R. Murry, son of James Murry, Mt. Savage, recently participated in a combined arms demonstration for Reserve Officer Training Corps cadets at Fort Riley, Kan.

Sergeant Murry, a squad leader in Company D of the 1st Infantry Division's 28th Infantry, helped stage a mock attack supported by tanks and artillery.

He entered the Army in 1952. The sergeant's wife, Louise, lives in Abilene, Kan.

Central PTA
Plans Programs

LONACONING — An executive board meeting of the Central Parent-Teacher Association was held a recent afternoon with Miss Alice McCormick, principal, and Mrs. Cecil Inskip, president, presiding.

A program for the year was submitted by Mrs. Samuel Bean, chairman. Board members voted to have copies printed in time for distribution at the first PTA meeting. Eighteen attended.

Navy's New Experimental Ship

The YAG-37, a converted Liberty ship with its power obtained from four turbo-prop aircraft engines, is shown undergoing repairs at the Maryland Shipbuilding and Drydock Company in Baltimore. The engines, visible in the photo, include two mounted on the forward deck and two aft. The YAG-37 is an experimental vessel that had its propeller removed and main engines secured.

Aircraft Engines Propel Test Ship

BALTIMORE, Aug. 29 (UPI)—The

Navy has completed tests on a ship propelled by four airplane

engines mounted on deck. Its

screw has been removed and the

engine room sealed off.

The experimental ship, with four turboprop aircraft engines, is now at the Maryland Shipbuilding and Drydock Co. here for repairs. Shipyard sources said it was converted at Jacksonville, Fla., brought to Norfolk, Va., then towed here from Norfolk.

In Washington, the Navy said today the tests were designed to determine the practicability and usefulness of aircraft power for surface vessels.

The YAG-37, a district auxiliary ship, attained speeds up to seven knots and proved maneuverable under various conditions. The Navy said it indicated possible future usefulness of this mode of power—for ships up to 13,000 tons when speed was not essential.

Westernport Council Accepts Settlement On Filter Work

Water Meters Are Again Discussed

WESTERNPORT—Mayor Okey E. Michael and Commissioners have accepted a counter proposal of the George Construction Company in the amount of \$6,566.82 for extra work incurred by the town for alleged defective work done at the number 2 subsidence basin in the filtration plant under a contract dated February 1, 1956.

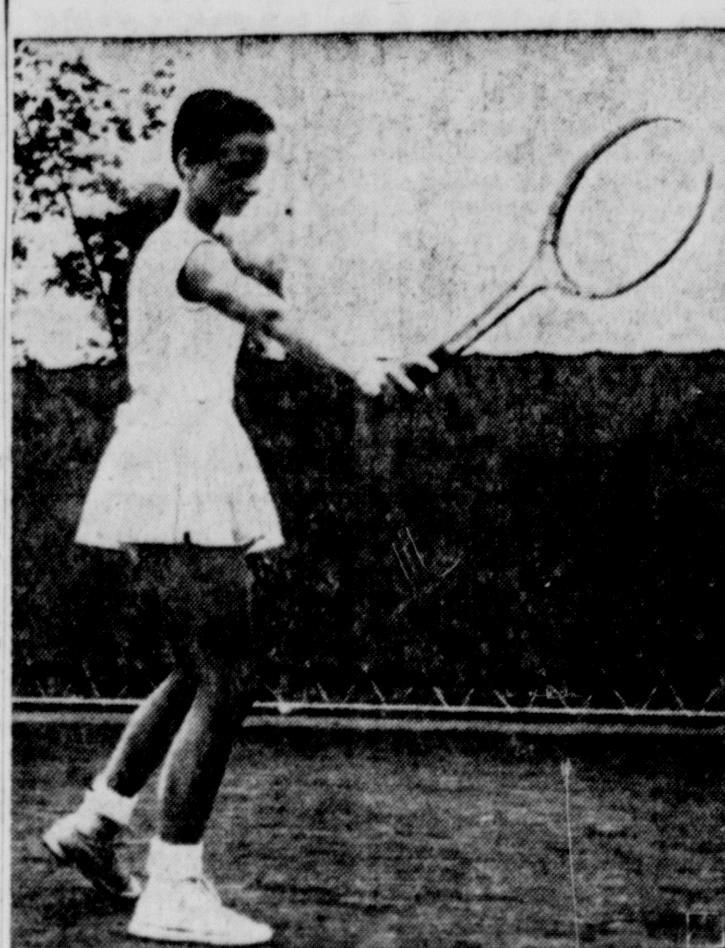

The town originally asked for \$9,516.82.

L. C. Lambert, a member of the official board of Church of the Brethren, conferred with the Mayor and Council relative to the church deeding the municipality 10 feet of ground on Gord Street, amounting to about 300 feet, on condition the town pay the cost of putting in curbing.

Mayor Michael pointed out that the town is always receptive in securing additional ground for widening a street, but at this time was unable to do so. The project would cost the town about \$1,000 to put in the curb. It would cost an additional amount to widen the street.

Lambert, who is a contractor, was asked what he would charge the town to lay the curb. It was decided to hold a meeting this evening on the church property with Lambert, Maurice Brundige, street commissioner and Alvin Pence, water commissioner, to discuss the matter further.

William J. Fitzgerald, salesman for the Rockwell Manufacturing Company, discussed the water meter his company is making with the town. It is a five-eighths by three-quarter meter and, for less than 200, sells for \$29.24 with couplings and graduates down in price according to the number of meters purchased. His company will finance them at 5 per cent without discounting. The registering part of the meter is guaranteed five years and the

West Virginia Tennis Champ

At 13, Fern (Peachy) Kellmeyer of Charleston is the youngest tennis player ever to win the women's singles championship of West Virginia. Peachy, who stands barely five feet, won the title by beating four-time champion Lettie Ewing of Wheeling.

C.L. Fankhauser Former Mayor Parsons, Dies

Owner Of Handle
Factory Was 74

PARSONS, W. Va. — Clarence L. Fankhauser, 74, former mayor and city councilman of Parsons, died yesterday in Tucker County Hospital here where he had been patient six days. He had been in ill health for two years.

A native of Wetzel County, he was a son of the late Nicholas and Armenta (Mayhill) Fankhauser.

Mr. Fankhauser owned and operated the Fankhauser and Sons Handle Factory which manufactures broom and mop handles and was active until he retired in 1952 due to his illness.

He was active in civic affairs in Parsons and served two terms as mayor and two terms as councilman. Mr. Fankhauser was a member of First Methodist Church.

Surviving, in addition to his widow, Nellie (Glenn) Fankhauser, are five sons, Dorman, Louisville, Ky.; Wendell, Akron, Ohio; Howard, Parkersburg, and Glenn and Paul Fankhauser, both of Parsons; two daughters, Mrs. Alice Crosten, Berkeley Springs, and Mrs. Marguerite Laback, Washington, D. C.; brother, William Fankhauser, Perry, Ohio, and 10 grandchildren.

The body will be at the Greenleaf Funeral Home here after 10 a. m. (EDT) today. Services will be conducted there tomorrow at 2 p. m. by Rev. Mead Gutshall, pastor of First Methodist Church, assisted by Rev. W. A. O'Dell, former pastor at First Methodist Church. Burial will be in Parsons Cemetery.

Return Home

FROSTBURG — Mrs. James Morgan and son, John, and Miss Lillian McAtee, Fairmont, returned home after visiting with Miss Lillian Feldmann, Eckhart.

Wanted: Sales Clerk and TV Salesman — Apply R. T. S. Appliance Center, Phone Frostburg 1485.

Keyser Kiwanis Hear Talk On Sweden School System

Bengt Ericson
Guest Speaker

KEYSER — Bengt Ericson, a native of Sweden, now an employee of the West Virginia Pulp & Paper Company, at Luke, was guest speaker at the regular weekly dinner-meeting Wednesday evening in First Methodist Church, North Davis Street, Key-Asn. chose Dr. Harper as the speaker. Mr. Ericson delivered an interesting talk on education in the year and honored him at the his native land as compared with the educational system in the United States.

The speaker began with the first grade in the Swedish system, and defined the program by group units to the end of the 13th year, where the system bears away entirely from any similarity with the American plan. After that time military service interferes somewhat for two years and then the students may enter college or university for completion of their scholastic work, but he said, the differences are great in comparison with the American plan.

He told his audience that there is a population of 8,000,000 persons in Sweden, and life habits are similar in many respects. There is not any football and no baseball as we know it, but there is ice hockey, and other competitive sports. There is no racial problem in his country, probably, he said, because the climate is very cold during the winter months.

Schools, he noted, do a part of child training in the early years. Students begin school at about six years of age, and remain at school each day until either their father or mother calls for them, as in many families both parents work, leaving early for the long hours, after which they call at the schools, get their children and go to their homes. The schools operate six days each week. Graduation from school comes at an average of 17 years of age.

The speaker had prepared a chart of the school years, up to and including college and university, together with subject matter taught. Compulsory school is effective from the first through the ninth years.

The universities are more select in Sweden than they are in the United States, he said. The first two years of school are known as Smaskola, followed by Folkskola from the third to and including the sixth year. The seventh through tenth years are called the Realskola. From and including the 11th through the 13th years are known as Symposium and the 14th and 15th years are for military service training.

The college and university years are from the 14th to the 19th inclusive. The Symposium years the students may study engineering, economics, business, public administration, etc.

In the colleges and university there are classes for physical education, study of dentistry, medicine, theology, philosophy, psychology, social work, languages, arts, law, journalism, library science, etc., in addition to engineering, architecture, business administration, economics, forestry, agriculture and veterinary surgical work, etc.

Other visitors at the Kiwanis meeting were Jack Fessand (Rotary), Charles Sievers, a local business man, and several Kiwanians who recently returned from vacations.

The commissioner said he has received a letter from Robert T. Regester, consulting engineer for the project, in which he approves the plant and recommends the acceptance. Regester said a final inspection was made of the plant constructed by Moyer Brothers of Altoona and has been found satisfactory.

Regester further recommended payment of the contractor's final fee less five per cent of the total contract price which is to be held by the city one year as a guarantee of good faith.

Buchholz said minor alterations which had delayed his acceptance of the project have been worked out.

CVAL Schools To Launch 28-Game Grid Card Sept. 20

Rebels, Owls Give Circuit Eight Teams

Campers-Handley Play Here; Cadets Have New Mentor

With Westminster High School's Owls of Carroll County, and South Hagerstown High School's Rebels as the new entries, the Cumberland Valley Athletic League, operating as an eight-team football circuit, will launch its 28-game schedule on September 20—just three weeks from Friday night—contests scheduled for Cumberland, Hagerstown and Frederick.

Revived last season after a lapse of 12 years, the league functioned with six teams, all of which will be represented during the coming campaign.

Hagerstown, Frederick, Allegany and Fort Hill of Maryland; Handley High of Winchester, Va., and Martinsburg, W. Va., made up the circuit last year and all have retained berths for the 1957 race which concludes with traditional Thanksgiving Day battles between Allegany and Fort Hill and Martinsburg and Winchester.

Cadets Have New Coach

Only one change is noted among the head coaches of the holdover schools and that is at Frederick High where Paul Molesworth succeeds Gene Hummel as grid mentor of the Cadets.

William P. Hahn remains at Fort Hill. Mel Henry is at the helm at North Hagerstown. John C. Coburn, dean of coaches in this area, is the Martinsburg Bulldogs head man. Chester G. Payne again will lead the Allegany High Campers and Hunter Madlock will guide the destinies of the Handley Judges. Other mentors are Herbert E. Ruby at Westminster High and Douglas Cochran at South Hagerstown High which will be fielding its first football team.

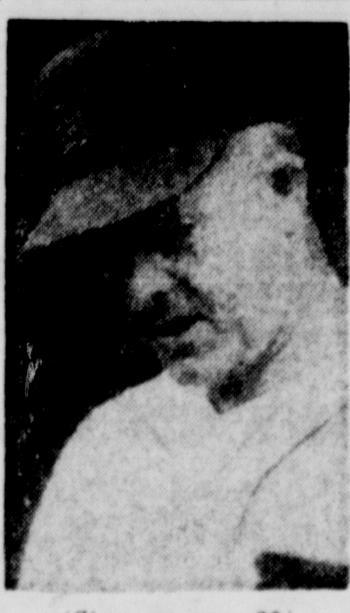

The league in which schools of three states are represented has 19 Friday, seven Saturday and two holiday (Thanksgiving Day) games on its slate.

Hubs Tied Sentinels

Hagerstown and Fort Hill shared the title last year, each turning in 4-1-0 records. Handley finished with 3-2-0 followed by Allegany 2-2-1, Martinsburg 1-3-1 and Frederick 0-3-0.

Bats are the only mammals possessing the power of true flight. Others parachute.

Geckos are the only lizards known to have voices. They can emit a faint squeak when excited a beetle.

United States Golfers Picked To Top British

Minneapolis Scene Of Walker Matches

MINNEAPOLIS, Aug. 29 (AP)—The United States Walker Cup golf team, with everything from tradition to the golf course in its favor, was an overwhelming favorite today to whip Britain's top amateurs in the 16th international competition starting tomorrow at the rain-soaked Minikahda club.

The one man who wouldn't agree with that forecast was Charlie Coe, the lanky Oklahoman who captains the American team.

After four days of preparing the American golfers for the biennial competition, Coe today expressed serious concern about the outcome of the matches.

British Very Quiet

"The British have been very quiet and when they don't say anything you begin to think they're doing pretty well," Coe said. "You can always hear a complainer, but when you don't hear anything, you begin to wonder."

Coe's concern stems, possibly, from the fact that he's serving as non-playing captain of the U.S. team for the first time. He played in the 1949, 1951 and 1953 Cup matches and managed to win just one point, so he knows how tough the competition can be in spite of the lopsided standing over the years.

Minikahda, a park-like 6,500 yard par 35-36—71 course, is rather deceptive. It looks easy until you study the individual holes. Then some of them appear very tough, with trees alongside nearly every fairway and high, lush rough bordering the greens.

The British team, which has been two years in the making, is a young group of husky players who haven't had much international experience.

It includes three players in their early 20s, Alan Bussell, Alex Shepperson and Michael Bonnallack, and only three over 30 years old. The Americans have only three under 30.

Trio Played Before

Only three of the Americans, Bill Campbell, a former Walker Cup captain; Chuck Kocsis and Billy Joe Patton, have played in previous cup matches. Of the Britons, Irishman Joe Carr and Philip Scuton have played previously and Dr. Frank Deighton was selected for the 1951 team but didn't play.

American Legion Junior Baseball Section A Tournament at Elkton, Md. (Double Elimination)

Washington, D.C. 1, West Warwick, R.I. 0 (West Warwick eliminated)

Grid Champs Of CVA Loop

Before the original Cumberland Valley Athletic League disbanded at the close of the 1943 season, Allegany High School was a member for 15 consecutive years, commencing with the 1929 season.

Fort Hill's Sentinels saw seven years of action after joining the loop in 1937.

Five Allegany High teams tutored by Herman Ball—1936, 1938, 1939, 1941, and 1942—were champions or co-holders of the title.

John J. Long's Fort Hill eleven was tops in 1940 while Mel Henry's Sentinels shared the honors with Hagerstown High in 1943.

When the league was revived last fall Fort Hill and Hagerstown retained their 1943 status by repeating as co-champions.

Here are the league champions since Cumberland has been represented.

Detroit Tigers Give Manager Jack Tighe 1958 Contract

DETROIT, Aug. 29 (AP)—The Detroit Tigers today ended speculation about Manager Jack Tighe's future by announcing that the 44-year-old rookie manager would be back in 1958.

Strangely, the club gave Tighe a new contract just after the fourth-place Tigers had suffered two of their most disappointing losses of the season.

"We are well pleased with Jack Tighe's work this season," said General Manager John J. McHale. "He has done a good job and we made the announcement now so everyone can make plans for next season."

The Tigers, picked to finish second in the American League, went into a three-game series with the Boston Red Sox on Tuesday night. Tiger organization without getting

need a sweep to take over third place. Instead, the Red Sox took club. "I learned some things about myself and the opener 7-5 in 11 innings and year—things about myself and beat the Tigers again yesterday about players."

Tighe's contract is believed to come as quite a surprise to me—especially at a time like this," said the bald skipper who succeeded Buck Harris a year ago against granting more than one year contracts.

Tighe was billed as the "fiery

and aggressive" manager the front office sought to instill new life into the Tigers, who have finished in the second division for six straight seasons.

He has spoken out angrily at his team at least on two occasions for a "don't-care attitude" and threatened them with fines. Recently he said he was going to make a personal curfew check and end

criticized his club for its in-and-out performances.

Despite this criticism Tighe has been popular with his players and with the fans. Unless the Tigers stage a furious finish in the closing month of the campaign, it is doubtful they will match their 82 victories of a year ago.

Frank Lary and Bill Hoefl, two pitchers who accounted for 41 victories last year, have had off-seasons. The hitters who were expected to lead the offense—Harvey

Snead And Demaret To Play In Tokyo

NEW YORK, Aug. 29 (AP)—Sam Snead and Jimmy Demaret were named today as the two U.S. players in the International Golf Championships and Canadian Cup matches in Tokyo, Oct. 24-27.

The choices were announced by Frank Pace, president of the International Golf Assn. Snead teamed with Ben Hogan to win both competitions on the Wentworth Course in Surrey, England, last year but Hogan was unable to participate this year because of a back injury.

Slaughter's 11th Inning Home Run Sinks Chicago, 2-1

Yankees Take Three In Row From Chisox

Ford Beats Donovan, Bauer Belts Homer, Lead Upped To 6½

By JERRY LISKI

CHICAGO, Aug. 29 (AP)—An 11th inning homer by 41-year-old Enos Slaughter today gave New York a 2-1 triumph and a sweep of a three-game set against Chicago, dumping the White Sox 6½ behind the front-running Yankees, before the largest weekday crowd at a day game in Comiskey Park history, 39,357.

New York's first run also was a homer, a leadoff clout by Hank Bauer in the third inning. The Sox tied it at 1-1 in the bottom of the third off Yankee starter, Tom Sturdivant.

The winner was lefty Whitey Ford, who relieved Sturdivant after six innings and turned in perhaps his best performance since an ailing shoulder started hampering him in May.

Ford In Comeback

Ford, whose comeback can virtually seal a pennant repeat by the high-flying Yankees, allowed only one hit and struck out four, including three in a row, during his five-inning stint.

The crowd of 39,357 made it 123-104 for the Yank-Sox series, the largest three-game attendance of the season at Comiskey Park. The Pale Hose now have attracted 1,063,294 fans in 59 home dates this year, running 98,976 ahead of last year at a comparable stage.

The loser today was Dick Donovan, who went all the way, scattering eight hits as he absorbed only his fourth loss against 15 victories.

Ford 4 Double Plays

Both clubs turned in some fine defensive play, but New York was the better with four double plays nipping Sox threats before they could get started. In three instances, the Yankee twin killing came after the first Sox batter got on base.

New York's first hit off Donovan was Bauer's No. 16 homer, a shot 10 feet inside the left field foul line, leading off the Yankee third. Bauer has hit three homers in his last five games. His seventh-inning clout last night gave New York a 5-4 victory.

The Sox tied it at 1-1 in the bottom of the third on Donovan's single, a fielder's choice, Nellie Fox's single and Earl Torgeson's long sacrifice fly to center.

HIS BLOW KAYOED CHISOX—Enos "Country" Slaughter, 41-year-old outfielder of the New York Yankees, is congratulated by Tony Kubek as he crosses plate in the 11th inning on a home run that whopped the Chicago White Sox yesterday in Chicago by the score of 2-1. It gave Manager Casey Stengel's club a three-game sweep of the series. The Yankees now hold a lead of 6½ games over the Pale Hose. (AP Photofax)

Giants, Bears Meet Tonight At Dallas

DALLAS, Aug. 29 (AP)—Professional football's top teams—the champion New York Giants and runner-up Chicago Bears—clash here tomorrow night in an exhibition that may attract 40,000.

Not only will it offer a chance for revenge for the Bears, who were blasted 47-7 by the Giants in the playoff, but New York will be trying to reverse a 21-16 upset in the University of Houston's Dallas exhibition last year.

The Bears will present both the No. 1 passer and ground-gainer of the year for both teams.

The National Football League in the Bears are unbeaten but were

quarterback Ed Brown and fullback Rich Casares.

last week.

New York boasts three of the best throwers in the game in the

Bobby Clatterbuck, the latter re-

geles Rams 24-7.

Old Man Connects:

Enos Didn't Swing Hard, Ball Sailed Out Of Park

Slaughter Tried To Get On Base

CHICAGO, Aug. 29—(INS)—Enos Slaughter, the grand old league man of the American League, was a picture of contentment to defeat, which gave the Yanks a day after sinking the Chicago sweep of the three-game series. White Sox pennant hopes with a Sox manager Al Lopez refused to concede the pennant.

"We've caught them (the Yankees) twice before this season," Slaughter said as he and we'll do it again this time," mopped the perspiration from his face. Lopez said. "They've got six games with Boston, so we can't

because my left fielder couldn't do anything in four times up. But at 41, Slaughter is more liable to break up a game than

the junior golf tournament got under way yesterday at the Cumberland Country Club.

Miss Susan Whitworth, Royce Hodges and Ed George turned in low gross scores for their respective classes as the first half of

the junior golf tournament got under way yesterday at the Cumberland Country Club.

Miss Whitworth headed seven players in the girls division with a gross score of 54 for the first

nine holes of the 18-hole event

which will be concluded today.

Runner-up was Miss Marie Naughton with a gross of 62.

Royce Hodges shot a 79 to lead

at the end of the first 18 holes

in the 15-16 age group for boys.

Mike Whitworth was in second

place with an 83. There are six

players in this division. The final

18 holes will be played today.

Ed George paced the four entrants

in the 13-14 age group with a gross of 52. This is an 18-hole test

with the last nine to be shot today.

Tee off time today will be 9:30 a.m.

Susan Whitworth, Hodges And George Lead In CCC Golf

Miss Susan Whitworth, Royce Hodges and Ed George turned in low gross scores for their respective classes as the first half of

the junior golf tournament got under way yesterday at the Cumberland Country Club.

The trio had 54 hole totals of

206, seven under par, to tie for

the title. Connor won the match

on the first hole of the sudden

death playoff with a birdie four.

Whitworth and Borkovich had

five fives.

Cops Golf Title

PITTSBURGH, Aug. 29 (AP)—Jobby Connor of Green Oaks won the Tri-State PGA Golf Championship today by defeating Lew Worsham of Oakmont and Andy Borkovich of Brackenridge Heights in a sudden death playoff at Shannopin Country Club.

The trio had 54 hole totals of

206, seven under par, to tie for

the title. Connor won the match

on the first hole of the sudden

death playoff with a birdie four.

Whitworth and Borkovich had

five fives.

Missile-Making Stocks
Gain As Market Declines

NEW YORK, Aug. 29 (P) — Aircraft and missile-making stocks were spurred late today by the international news but not in time to convert a dull and generally declining stock market to the upside.

Russian rejection of the West's all-or-nothing disarmament package brought late recovery to the aircraft and missile-makers which previously had been falling along with the rest of the market.

Chrysler, which had been dragging along with a 1-point loss, sprang to life and showed a net gain of more than that as Army Secretary Brucker said that the firm's "Jupiter" missile was "a spectacular success."

The Associated Press average of 60 stocks fell 70 cents to \$173.00 with the industrials down \$1.10, the rails down \$1.10 to a new 1957 low and the utilities down 10 cents.

The number of issues traded was a narrow 1,118, of which 615 declined and 257 rose. There were 121 new lows for the year and only one new high, American Stores.

Of the 15 most active stocks, 8 fell, 5 rose and 2 were unchanged.

U. S. Steel was the most active stock, unchanged at 64½ on 19,600 shares. Second was Georgia-Pacific Corp., off ¾ at 30 on 17,500 shares. Third was General Motors, off ½ at 42½ on 17,100 shares.

Next came General Dynamics, up ¼ at 57, and Chrysler, up 15/16 at 76½.

But for most stocks, losses were the general picture. Among them were Youngstown Sheet & Tube, Kenecott 1½, Anaconda 1½, Alcoa 1½, Allied Chemical 2½, International Paper 2½, Schering 2½, Chesapeake & Ohio 1½, New York Central 1½, Gulf Oil 1, Amerada 2½ and Johns-Manville 2½.

For most stocks, losses were the general picture. Among them were Youngstown Sheet & Tube, Kenecott 1½, Anaconda 1½, Alcoa 1½, Allied Chemical 2½, International Paper 2½, Schering 2½, Chesapeake & Ohio 1½, New York Central 1½, Gulf Oil 1, Amerada 2½ and Johns-Manville 2½.

Maysville Man, Pinned Under Tractor, Dies

Vehicle Upsets On Arlie E. Rexroad, 38

A 38-year-old father of two boys was killed yesterday afternoon when he was pinned against a stump after a tractor he was driving overturned. He had been gathering pulpwood in a mountain area near Arthur, W. Va., in Grant County.

The victim, Arlie Eugene Rexroad, of Maysville, was reported to have died en route to the Veach-Townsend Clinic in Petersburg where he was pronounced dead by Dr. M. F. Townsend.

Dr. Townsend said Mr. Rexroad died of a crushed chest and internal injuries. He also had lacerations of the face.

The accident occurred on Ora Mountain on the property of Raymond Rumer as Mr. Rexroad, his two sons and another boy were working on the pulpwood job.

Was Backing Tractor

The victim's sons, Earl E. Rexroad, 16, and Anthony Rexroad, 12, and Robert Lee Evans, 17, said the accident happened about 2:45 p. m. as Mr. Rexroad was preparing to back the tractor up the hillside.

The boys said the tractor apparently was in low gear, and as it jerked, Mr. Rexroad was thrown from the vehicle against a stump. Simultaneously the tractor overturned and the rear wheel pinned the victim.

In order to free the man, the three boys had to remove a large blade on the front of the tractor used for road building, and hitch up a horse to pull the vehicle from the victim's body.

The boys carried the victim for a short distance, then put him on a truck and drove to the clinic. Dr. Townsend surmised the victim died about 3:30 p. m. after apparently being knocked unconscious.

Grant County Native

A native of Grant County, he was born May 5, 1919, and was a son of Frank W. and Dorothy Leona (Van Fleet) Rexroad. Mr. Rexroad was a member of Maysville EUB Church.

Surviving besides his parents and two sons are his wife, Mrs. Lillian L. (Tephoback) Rexroad and two brothers, Lyle C. Rexroad, Long Beach, Calif., and Paul J. Rexroad, of Baltimore.

The body is at the Schaeffer Funeral Home in Petersburg, W. Va.

Youths To Hold Church Services

Teen-age youths of Calvary Baptist Church in Cresaptown will have charge of the Sunday evening services this weekend. Services begin at 7:30 p. m.

J. C. Skidmore, the group's sponsor, said the following program has been arranged: Youth Choir with vocal trio including Mildred Orndorff, Janet Armstrong and Judy Skidmore.

The Scripture reading will be by Nick Wenrick, the Offertory by Karen Durr with minute messages by Margaret Shears, Karen Durr, Dave Stouffer and Marion Armstrong.

Mary Susan Smith will give an accordion solo while Lois and Euencie Allen will give an instrumental duet with a saxophone and clarinet. The message will be by Bob Jones, student at the University of Maryland.

Rev. Harold A. Allem, pastor, said special recognition will be given to students returning to college or Bible school.

Residents Should Conserve Water

Water Commissioner William J. Edwards yesterday urged all users of city water to practice water conservation even though no emergency exists here.

Mr. Edwards said residents should use good judgment in using water for such purposes as washing cars and soaking lawns. Leaking faucets also should be repaired, he said.

The city still has an ample supply. Lake Gordon is one foot two inches below the spillway and Lake Koon seven feet six inches below.

State Police Plan Heavy Holiday Patrol

The Maryland State Police of LaVale barracks will be on the roads in full force over the Labor Day weekend, according to Lt. W. E. O'Hara, commander.

All leaves and vacations have been cancelled. Lt. O'Hara said, and men working out of the LaVale barracks will patrol the highways on a 24-hour schedule for five days starting today.

Lt. O'Hara also said the radar detail of the State Police will be operated in a normal fashion.

Condition Is 'Good'

The condition of Harold F. Tice, 17, of Route 5, city, is listed as "good" at Memorial Hospital where he was admitted as a patient Wednesday. The boy, son of Mr. and Mrs. Harold F. Tice, ran from January 2 until April 1, George K. Conway, history teacher, is a member of the Allegany High School football team and apparently was struck the head during practice. He later complained of feeling ill and was taken to the hospital.

Dystrophy Patients Get Lift

Clyde Cook Jr., 11, and his brother, Ronald, 10, of Oldtown Road, are shown above with a hydraulic lift built especially for muscular dystrophy patients. Left to right are J. Chester Phillips, Baltimore, district representative for MD, Fire Chief Virgil A. Parker, vice president of the Allegany-Garrett counties chapter of MD, Albert Doub, president of the chapter, and the two youngsters. The three men took the lift to the Cook home.

Public Safety Building Custodian Retires

A local man whose duties as custodian at the Public Safety Building during the past dozen years included the regulation of heat in the city "cooler" during the winter, has retired.

He is George C. Loeber, of 508 Marshall Street,

who has gone into retirement after working about half a century. One of his first jobs in Cumberland was at the tannery located on Wills Creek and run by a New York firm.

His job was readying sponge leather for the roller and he was employed at the tannery for about three years. They are the sons of Mr. and Mrs. Clyde Cook Sr.

The lift, which is built especially for muscular dystrophy patients, is useful in helping them in or out of bed or in and out of a chair or davenport.

The successful bidder will be required to enter into a contract with the city and each proposal must be accompanied by a certified check, drawn to the order of the Mayor and City Council of Cumberland, in the sum of \$500.

The check will be forfeited as liquidated damages in case an award is made and the contract is not properly executed within 10 days after the mailing of the notice of the award. Checks of unsuccessful bidders will be returned after the contract is awarded.

The Mayor and City Council will reserve the right to reject any or all bids.

Gratings Changed

Meanwhile, the city is making some changes in the gratings of storm sewers at the intersection of Johnson and Pace streets on the West Side.

When the street was paved last year the grates were placed at the low section to take care of chain or davenport.

The lift will be delivered to the Cook home by J. Chester Phillips, Baltimore, district representative of the Muscular Dystrophy organization; Albert Doub, president of the Allegany-Garrett Counties chapter, and Fire Chief Virgil A. Parker, vice president of the chapter.

Chief Parker said the hydraulic equipment will relieve the parents of the need to lift the boys, who are getting quite heavy as they grow older. Mrs. Cook said the lift is a "wonderful help" to her.

Henrietta E. Lippold, executive chairman of the Allegany County League for Crippled Children, which works with the MD chapter, said Clyde has had the disease since 1952 and it was detected in his brother the following year.

The lift was purchased with the aid of contributions of local and area residents who gave money in past fund-raising drives. The Board of Education furnishes a home teacher to instruct the two boys.

Health Officials Ready If Flu Epidemic Begins

BALTIMORE, Aug. 29 (P) — A State Health Department official said today that 239,000 to 560,000 Marylanders could get Asian influenza if the disease reaches epidemic proportions this fall.

"The disease is expected to hit 10 to 20 per cent of the population," said Dr. Charlotte Silverman, chief of the division of epidemiology and communicable disease control.

Dr. Silverman said experience has shown Asian flu to be "mild, lasting only a few days, with uncomplicated recovery."

Maryland's eight-member advisory committee on influenza will meet at the State Health Department tomorrow, for further planning on how to combat the disease.

A recently developed flu vaccine is to be given first to those persons in vital occupations.

Deaths

Campbell, Charles M., 87, Piedmont, W. Va.

Denson, Johnson M., 71, of 532 Greene Street.

Harper, Dr. William G., 69, Elkins, W. Va.

McNally, Mrs. Anna M., 88, of 69 Greene Street.

Weidner, Henry, 63, RFD, Fairhope, Pa.

Kiwanians Hear Duties Of Attorney-General's Office

Maryland's attorney-general's office reads all legislation, interprets a great deal of legislation, kills some legislation, but passes no legislation.

That was the nutshell summary of the duties of that office provided yesterday by William C. Walsh, local attorney, at the meeting of the Cumberland Kiwanis Club at Central YMCA.

William H. Johnson, the Kiwanis president, announced yesterday that the board of directors has approved the selection of George K. Conway, history teacher,

of the General Assembly which is a member of the Allegany High School football team and apparently was struck the head during practice. He later complained of feeling ill and was taken to the hospital.

It was the local attorney's job to read all of the 1,600 bills introduced at the session in order to summarize the proposed legisla-

tion and to spot any constitutional defects.

William J. Donahue, who has moved to Talbot County as a high school principal, to midnight.
